

## Fundy Agriculture Services

Looking for a Service Tech for the Sussex area. They are experiencing high turnover for this position and receiving resumes that do not have the qualifications.

People applying should have experience in this field of work and need to be proficient in English.

Service of Milking equipment – milk masters, delpros, robotic – classic and V300's

Basic knowledge of milking systems – course experience

Servicing of receiver groups – Vacuum pumps, wash systems

Wash analysis

Assist Installs of milking equipment, manure equipment, mats and stabling curtains

Daily paperwork for workorders

Vehicle maintenance

Skills:

Electronic skills, a trade, mechanically inclined

Job entails speaking to local farmers so English has to be very good.
